

Jumbo IBC Bund

Product Info:

Perfect for use when storing any form of chemical, oil or other liquid in an Intermediate Bulk Container (IBC)

The Jumbo IBC Bund has been designed to help protect the workplace, its personnel and the immediate surrounding environment.

Manufactured from prime MDPE using chemical resistant polymer the Jumbo is a perfect alternative to a steel sump. Corner ribbed support feet mean the Jumbo is able to accommodate an IBC weighing up to 1600kg.

With no drainage points the Jumbo has no risk of leakage, so no environmental hazard.

Key Features:

- Made from Prime MDPE
- Corrosion Free
- Ribbed Corner Feet
- 100% Recyclable
- Easily Movable - Compatible with Pallet Truck or Forklift
- Optional Canopy Available
