

Product Info:

The Oakpoint Station range is a highly visible H&S and PPE Station.

A mobile display point, ideal for sites and work areas where there is a requirement to highlight safety regulations and equipment or essential site information required by law.

Stations are suitable for both indoor or outdoor use and are fully weatherproof. Featuring an enclosed noticeboard area, internal racking or shelves and a large base that can be used to store spill kits, fire extinguishers or first aid equipment.

For extra weight, the base can be water filled for extra stability and continued deployment. There are also four anchor points to allow the station to be pinned down if necessary.

Key Features:

- Easy to Assemble
- Hygienic & Easy to Clean
- Reusable & Sustainable
- Fully Recyclable
- Wind Tested Up To 67mph
- One Person Assembly & Deployment
- Customisable & Versatile
- Stackable for Easy Transportation
