

## Sitewall Barriers

### Product Info:

'Robust and Versatile' – that is the mantra for the Sitewall barrier. Easily adaptable to corners or angles without compromising on strength, the Sitewall barrier wits well in any environment.

Manufactured from prime UV stabilised HDPE, each barrier can be water or sand filled, making their total weight, an impressive 300kg.

Like all of the Oaklands barrier range, the Sitewall is easy to deploy and when used with the mesh fencing option, stands at 2 metres high, providing a secure and safe boundary for your site or pedestrian walkway.

### Key Features:

- UV Stabilised HDPE
- Adaptable & Versatile
- Robust
