

Stop / Go Sign

Product Info:

Manufactured from recycled polyethylene the Stop/Go sign is corrosion free and non-conductive.

Operated by site personnel, the stop/Go sign safely allows you to control traffic flow in road work zones, without the need for temporary traffic lights.

The sign comes attached to a pole to make operating it simple and effective.

Offers a more cost effective method of traffic control for short term application.

Key Features:

- Two Sided, One Piece Head
- No Sharp Edges or Bolts
- Shatterproof
- Lightweight
- Stop Works and Bespoke Signage Available
